📅 17/09/2004

Summary

Motivated Web & Mobile Developer with practical experience building full-stack applications using React, Next.js, and Node.js/Express.js, as well as cross-platform mobile app using React Native. Developed an e-commerce platform and a web-based university scheduling tool. Currently expanding development skills through additional training and self-study. Enthusiastic about continuous learning, writing clean code, and joining a collaborative team to work on real-world production projects.

Professional Experience

09/2025 – 11/2025

Riga, Latvia

.NET Developer, Turība University

- Developed a web-based lecture scheduling system intended for internal university use.
- Designed a relational database (MySQL) to store schedules, user notes, and attendance logs.
- Built a functional user interface for viewing schedules, tracking attendance, and adding personal notes.
- Implemented core backend functionality using .NET to enable real-time schedule updates.
